KYB-5K-MEM-TP-OEM

MEMBRANE KEYBOARD WITH TOUCHPAD

The KYB-5K-MEM-TP-OEM is the OEM model of iKey's newest membrane keyboard product line. This industrial membrane keyboard is built to withstand the harshest of environments. Modeled after iKey's popular 5K product line, this keyboard is manufactured with a hardcoated, textured polyester film and trampoline-mounted, snap-dome switches that provide a superior feel and actuation over a standard membrane keyboard. Since this keyboard lacks the crevices found between the keys of a regular keyboard, it is extremely durable and easy to clean. When installed correctly, the KYB-5K-MEM-TP-OEM is designed to meet NEMA 4X specifications, which means it can withstand directed hose water, disinfectants, environmental contaminants and heavy industrial use.
